## Questions to Alberta Provincial Candidates

1. Do you feel the number of MLAs elected to the Legislature from each party should be proportional to the number of votes cast for that party's candidates?
2. If an all-party/citizen process recommends adding an element of proportionality to Alberta's electoral system, would you vote in favour of implementing these recommendations in time for the following general election?
3. Are you willing to sign Fair Vote Canada's Declaration of Voters Rights – Politicians' Pledge?
4. If you were to summarize your current views on proportional representation in one or two sentences, how would you express them?
5. If you are unsure, would you be willing to work with Fair Vote Canada to learn more about changing the voting system to strengthen our democracy?
